# InspecGAGE

## Introducing InspecGAGE!

### Core Features, Performance and Security of this Calibration Tracking Software

InspecGage is new to Inspec, Inc. as of January 2008 and we are excited to announce its key features and offer this tracking system to improve efficiency and performance for our customer's quality program.

- Total Gage Event Tracking - Calibration, Repairs, Maintenance, Interim checks, etc.
- Cloning to quickly duplicate existing equipment, and Smart Feature to eliminate duplications.
- Powerful Calibration entry, Cal due reporting and reminders.
- Create internal or save scanned external Certificate of Calibration and other Doc's
- Supports Off Site Calibration vents and Imports/Export.
- Tracking and Traceability support for Calibration Uncertainty.
- Links to Quality procedures, Forms and Revisions status and audit trail for changes.
- Simple Record History for multiple pieces of equipment.
- Feature Bar Code calibration stickers for popular printers.
- Quick Smart Search Functions.
- Tracks cost and pricing.
- Web based, thus view other plants gages, availability, from the internet or Intranet.
- Security to control system access, unauthorized editing.
- Customer RS-232C Interfacing of equipment.
